Built in the heart of the Gobi Desert in Mongolia the experience hotel is staffed by Mongolians who offer traditional hospitality to visitors. You stay in a "Ger" which is the traditional tent of Mongolia's nomadic herders. They are heated by wood burner and supported by beautifully painted wooden lattices. Your luxury Ger has a king-sized bed, sink and toilet and traditional beauty products. A huge range of tours, nomadic expeditions and cultural experiences are on offer. You can take a birding expedition, explore dinosaur fossils or journey to the Golden Eagles Festival of the Kazakhs in the Altai Mountains. You can take a horseback journey to a mystical lake with healing waters but then what do you expect from Mongolia's multi-award winning tour guides? The lodge has firm eco principles and supports local efforts to conserve the natural environment and protect the culture of the local people.
